2019 LIVE OR SILENT AUCTION WISHLIST

You can help fight childhood hunger in Mecosta County by donating a gift/auction item. Last year's auctions raised over \$20,000 to help feed local food insecure kids. We are asking for your generosity to help create another successful auction. We have a couple of ideas in mind, so we made a wish list. Even if you don't have any of these items, you could help immensely by sponsoring to buy one. You sponsor the item and we'll do the shopping for you.

Smaller Items

We trust your taste more than ours. The next time you're shopping, take a cruise through the accessories department to see what catches your eye.

You can't feel guilty buying it if it's for a great cause!

Artwork

Our area is filled with talent. We have seen our local artists create amazing pieces of artwork. If you need inspiration to get started on a new piece of artwork, consider making something that can benefit the children in our area.

Large Items

Even adults love toys. Think of the large things in life that you wish you had in your home, backyard, or office. If you see an awesome sale on something you would love to buy but know your significant other might say no to, live vicariously by donating it to our silent auction.
